Amendment Dated December 17, 2008

AMENDMENTS TO THE CLAIMS

This Listing of Claims will replace all prior versions and listings of claims in this application.

Listing of Claims:

1. (Original) A biodegradable polyester mixture comprising

from 5% to 80% by weight, based on the total weight of components i to ii, of at least one polyester based on aliphatic and aromatic dicarboxylic acids and an aliphatic dihydroxy compound (component i) and

from 20% to 95% by weight, based on the total weight of components i to ii, of at least one renewable raw material (component ii) and

from 0.1% to 15% by weight, based on the total weight of components i to ii, of a glycidyl acrylate and/or glycidyl methacrylate as component iii.

- 2. (Original) The biodegradable polyester mixture according to claim 1 wherein said component i is polymerized from:
 - A) an acid component comprising
 - a1) from 30 to 99 mol% of at least one aliphatic or at least one cycloaliphatic dicarboxylic acid or its ester-forming derivatives or mixtures thereof
 - a2) from 1 to 70 mol% of at least one aromatic dicarboxylic acid or its esterforming derivative or mixtures thereof and
 - a3) from 0 to 5 mol% of a sulfonated compound,

the mole percentages of said components a1) to a3) adding up to 100% and

Amendment Dated December 17, 2008

B) a diol component comprising at least one C_2 - to C_{12} -alkanediol or a C_5 - to C_{10} -cycloalkanediol or mixtures thereof

and if desired additionally one or more components selected from

- C) a component selected from
 - c1) at least one dihydroxy compound which comprises ether functions and has the formula I

$$HO-[(CH2)n-O]m-H (I)$$

where n is 2, 3 or 4 and m is an integer from 2 to 250,

c2) at least one hydroxy carboxylic acid of the formula IIa or IIb

$$HO - C(O) - G - O - D + C(O) - G - O - C(O) - C(O)$$

where p is an integer from 1 to 1500, r is an integer from 1 to 4 and G is a radical selected from the group consisting of phenylene, $-(CH_2)_q$ -, where q is an integer from 1 to 5, -C(R)H- and $-C(R)HCH_2$, where R is methyl or ethyl,

- c3) at least one amino- C_2 to C_{12} -alkanol or at least one amino- C_5 to C_{10} cycloalkanol or mixtures thereof
- c4) at least one diamino-C₁- to C₈-alkane
- c5) at least one 2,2'-bisoxazoline of the general formula III

$$\begin{bmatrix} N \\ C - R^{1} - C \\ O \end{bmatrix}$$
 (III)

where R^1 is a single bond, a $(CH_2)_z$ -alkylene group, where z=2, 3 or 4, or a phenylene group

Docket No.: 12810-00192-US

c6) at least one amino carboxylic acid selected from the group consisting of the natural amino acids, polyamides obtainable by polycondensation of a dicarboxylic acid having from 4 to 6 carbon atoms and a diamine having from 4 to 10 carbon atoms, compounds of the formulae IV a and IVb

$$HO - C(O) - T - N(H) - SH$$

$$(IVa) \qquad (IVb)$$

where s is an integer from 1 to 1500, t is an integer from 1 to 4 and T is a radical selected from the group consisting of phenylene, $-(CH_2)_u$ -, where u is an integer from 1 to 12, $-C(R^2)H$ - and $-C(R^2)HCH_2$, where R^2 is methyl or ethyl,

and polyoxazolines containing the repeat unit V

where R³ is hydrogen, C₁-C₆-alkyl, C₅-C₈-cycloalkyl, unsubstituted or C₁-C₄-alkyl-monosubstituted, -disubstituted or -trisubstituted phenyl or is tetrahydrofuryl,

or mixtures of c1) to c6)

and

D) a component selected from

Amendment Dated December 17, 2008

d1) at least one compound having at least three groups capable of ester formation,

- d2) at least one isocyanate
- d3) at least one divinyl ether

or mixtures of d1) to d3).

- 3. (Previously Presented) The biodegradable polyester mixture according to claim 1 wherein said component ii is one or more selected from the group consisting of starch, cellulose, lignin, wood and cereals.
- 4. (Previously Presented) The biodegradable polyester mixture according to claim 1 which comprises

from 10% to 70% by weight of said component i and from 30% to 90% by weight of said component ii, each percentage being based on the total weight of said components i to ii.

- 5. (Previously Presented) The biodegradable polyester mixture according to claim 1 which comprises from 0.5% to 10% by weight of said component iii, based on the total weight of said components i to ii.
- 6. (Previously Presented) A process for producing biodegradable polyester mixtures according to claim 1which comprises said components i, ii and iii being in one step mixed and, in the presence or absence of a free-radical initiator, reacted.
- 7. (Previously Presented) A process for producing biodegradable polyester mixtures according to claim 1, which comprises a first step of said component iii being mixed with and, in the presence or absence of a free-radical initiator, reacted with one of said components i or ii and a second step of the hitherto unused component ii or i being mixed in and reacted.

Amendment Dated December 17, 2008

- 8. (Canceled).
- 9. (Presently Presented) Blends, moldings, films, sheets or fibers comprising biodegradable polyester mixtures according to claim 1.
- 10. (Original) The biodegradable polyester mixture according to claim 2 wherein said component ii is one or more selected from the group consisting of starch, cellulose, lignin, wood and cereals.
- 11. (Original) The biodegradable polyester mixture according to claim 2 which comprises

from 10% to 70% by weight of said component i and from 30% to 90% by weight of said component ii, each percentage being based on the total weight of said components i to ii.

12. (Original) The biodegradable polyester mixture according to claim 3 which comprises

from 10% to 70% by weight of said component i and from 30% to 90% by weight of said component ii, each percentage being based on the total weight of said components i to ii.

- 13. (Original) The biodegradable polyester mixture according to claim 2 which comprises from 0.5% to 10% by weight of said component iii, based on the total weight of said components i to ii.
- 14. (Original) The biodegradable polyester mixture according to claim 3 which comprises from 0.5% to 10% by weight of said component iii, based on the total weight of said components i to ii.

Reply to Non-Final Office Action of September 17, 2008

Amendment Dated December 17, 2008

15. (Original) The biodegradable polyester mixture according to claim 4 which comprises from 0.5% to 10% by weight of said component iii, based on the total weight of said components i to ii.

- 16. (Original) A process for producing biodegradable polyester mixtures according to claim 2 which comprises said components i, ii and iii being in one step mixed and, in the presence or absence of a free-radical initiator, reacted.
- 17. (Original) A process for producing biodegradable polyester mixtures according to claim 3 which comprises said components i, ii and iii being in one step mixed and, in the presence or absence of a free-radical initiator, reacted.
- 18. (Original) A process for producing biodegradable polyester mixtures according to claim 4 which comprises said components i, ii and iii being in one step mixed and, in the presence or absence of a free-radical initiator, reacted.
- 19. (Original) A process for producing biodegradable polyester mixtures according claim 5 which comprises said components i, ii and iii being in one step mixed and, in the presence or absence of a free-radical initiator, reacted.
- 20. (Original) A process for producing biodegradable polyester mixtures according to claim 2, which comprises a first step of said component iii being mixed with and, in the presence or absence of a free-radical initiator, reacted with one of said components i or ii and a second step of the hitherto unused component ii or i being mixed in and reacted.
